After the call is over

The image shows two screenshots of a mobile application interface. Both screenshots have a dark header bar with the word "Expert" and a search icon. The top screenshot shows a message: "You were on call with Phil". Below it is a table of charges:

Total time spend :	2min
Charge per minute	\$2/min
Tax	\$1
Total	\$5.00

Below the table, there is a section titled "Select a Payment Method" with two options: "VISA" (selected) and "PayPal". There is also a link "+ Add New Card". At the bottom is a large grey button labeled "Pay Now".

The bottom screenshot shows a confirmation message in a white box: "Thank you", "Your payment has been received.", and "Phil".

At the very bottom of both screenshots are navigation icons: a house, a blog post, an envelope, and a heart.

Labels below the screenshots indicate the context: "Pay for your service" under the first screenshot and "Assuring user" under the second.
